ITSYS Solutions

Empowering Businesses through Data

What we do in QSR

ITSYS Solutions specializes in competitor market research through web scraping, AI/ML, and big data analytics to provide data points like menu pricing, store hours, wage information, and user reviews from the deep web. Our tailored data feeds cater to industries across North America and Europe, segments such as aftermarket auto part manufacturers, fuel retailers, convenience stores, and e-commerce. Gain a competitive edge, enhance customer satisfaction, and drive profits with ITSYS Solutions data feeds.

Why us?

-  Experience working with 18 Food and Beverage multinational brands/ franchisees.
-  Having a database of 400,000+ restaurants on a global level.
-  Flexible to customize our solution to match your needs
-  Economical Cost Structure in the Industry.
-  Compatible with any top BI tool.
